MEMORANDUM

SUBJECT: Correspondence/Communication for Update #8

FROM: David Bennett *David Bennett*
NPL Coordinator

TO: Bob Myers
Site Assessment Branch

Attached please find a transcript of the meeting held November 30, 1989, between EPA and Monsanto. Also, please find an aerial photo and map which Monsanto presented to EPA during the meeting, as well as the hand-outs Monsanto presented. Please include the attachments in the NPL public docket.

I have reviewed all of the attached material and am of the opinion that all of this is basically a re-hash of the comments Monsanto previously submitted. Monsanto has admitted this in the transcript. Monsanto did not present any new factual information which would change the HRS score.

Please feel free to telephone me if you have any questions.
